

Capstone Project

I. Study Schedule Generator

- **Similar App:**

- **StudySmarter:** Personalized learning plans and schedules, Tracks progress and adjusts the plan.
- **MyStudyLife:** Customizable weekly/monthly schedule generator, Cloud-based planner for subjects, assignments, and exams.
- **Todoist:** Task management with customizable due dates, Organizes tasks into projects and categories.

- **Key Difference:**

- AI-powered study roadmap and time optimization.
- Personalized study strategies for each subject.
- Motivational features like goal tracking

- **Essential Features to Focus On:**

- **User Input Form:** Input subjects, free days, free time, and days needed for each subject.
- **Schedule Generator:** Simple algorithm to assign study times to a calendar view.
- **Calendar View:** Display the generated schedule in a simple table or grid format.
- **Warnings:** Notify users if the allocated time is insufficient to meet their goals.
- **Quiz:**
 - Generate quizzes based on
 - The subject and topic covered during the scheduled session.
 - The difficulty level chosen in the input form.
 - Adaptive Quiz Logic:
 - Increase question difficulty based on quiz performance.
 - Provide immediate feedback with explanations for incorrect answers.
 - Track progress:
 - Save quiz scores for each subject.
 - Display a Quiz History chart to show improvement over time.

- **Technology :** Web Application

- React Js (Frontend)
- Laravel (Backend)
- MySQL (Database) Shared Hosted (<https://www.hostinger.com>)

Feature/Aspect	StudySmarter	MyStudyLife	Todoist	My App
Personalized Study Plan	Yes (for learning plans)	Yes (for subjects and exams)	Yes (task-focused)	Yes (AI-generated roadmap based on input)
AI Integration	Yes (suggests study schedule)	No (manual schedule creation)	Yes (task prioritization and reminders)	Yes (time optimization and subject roadmap)
Time Optimization	No	No	Yes (suggests task timing)	Yes (recommends study time adjustments)
Subject-Specific Roadmap	No	No	No	Yes (personalized subject study plans)
Goal Tracking / Motivation	Yes (tracks progress)	Yes (schedules with reminders)	Yes (task progress)	Yes (study progress and achievement tracking)
Focus Area	Personalized study plans and performance	Study schedules and reminders	Task management and productivity	Academic-focused study scheduling with AI

II. University Detail

- **Similar App :**
 - **Scholarship Guide:** Search and filter scholarships, Application guidance and tips.
 - **Ministry of Education (MOE):** National scholarship and financial aid info, Educational program details.
 - **SG Digital Scholarship:** Tech and media-focused scholarships,
- **Key Difference:**
 - **Personalized Specialization Recommendations:** Current platforms focus on scholarships and general information about universities but do not provide tailored guidance on what to study.
 - **Holistic University Profiles:** consolidates all relevant information in one place.

- **Scholarship Matching Based on Eligibility:** Platforms like **Scholarship Guide** list scholarships but don't assist users in finding the ones they are eligible for.
- **Essential Features to Focus On:**
 - **Allow users to input:**
 - Subjects they excel in.
 - Behavioral traits (e.g., leadership, teamwork, creativity).
 - **Use AI to recommend:**
 - Specializations (e.g., Computer Science, Marketing, Psychology).
 - Related career paths.
 - **Search for universities based on:**
 - Location (country, city).
 - Field of study or specialization.
 - Tuition fee range.
 - **Display detailed university profiles, including:**
 - Available programs and their requirements.
 - Scholarship options for each program.
- **Technology :** Web Applications
 - React Js (Frontend)
 - Laravel (Backend)
 - MySQL (Database) Shared Hosted (<https://www.hostinger.com>)
